ARTHUR B. CONDON WRITES FROM TRINIDAD, COL.

FIGHTING ON STREETS

Strikers, Mostly Foreigners, Try to Capture City Jail—Conditions Bad.

Arthur B. Condon of Trinidad, Col., son of Mrs. B. E. Condon of this city, wrote a letter to Loyd Miles of the Maryville Advertising company about the big miners' strike now going on in Colorado. Trinidad is in the center of the mining district and is a city of 16,000. Mr. Condon has lived in Trinidad for over a year and is in the employ of the Robinson-Wright Printing Co. He and his family will probably move back to Maryville soon. John H. English, a former Maryville printer, is in Trinidad and is employed by the same concern.

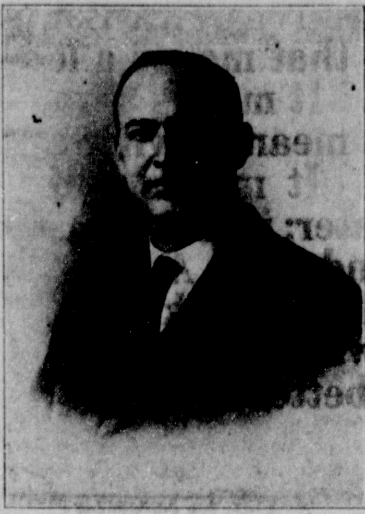

The letter follows:

You probably read in the Advertiser of the Ludlow fight. Ludlow is about twelve miles from here, on the way to John's ranch, and a little to the left. Well, at the time of the battle Captain Lindenfelt was stationed there with a large army of forty-two men, merely to protect property in that district, and not expecting to fight the dagos at all. The miners and their leaders claim that Lindenfelt attacked them with machine guns and had no respect for women or children, but merely began a campaign of butchery and annihilation. Imagine, if you can, forty-two men attacking something like four or five hundred strikers. Ridiculous! The militia were fired upon while taking their horses to water. Then it was that things really did happen. True, Lindenfelt had a machine gun, and he knew how to use it, too, as attested by the papers and various other reports. All of the talk about the murdering of innocent women and children is all rot—tommy-rot. Eleven of them were smothered in the pits that they had dug beneath their tents—not a one was shot. The strikers are to blame for their deaths—they knew that they were going to fight, in fact had planned it two weeks before hand—why didn't they remove their women and children to a place of safety—because they didn't have even the sense of a wild beast—which most of them are. Now, after the fight and destruction of their tent colony they came into our little city and established headquarters where the militia were formerly camped—you remember, out there by the hospital. Now, maybe you think Trinidad was glad to see them; no, not yet. They soon began to intimidate and carry on their little warfare right here in this peaceful (?) city—last Saturday night they had the nerve to try and capture the city jail, where several of their men have been making their home for several months. I was downtown about 8 o'clock and at that time they were marching around the streets, singing Onions forever, boys, onions forever, boiled, fried or raw, and if you don't eat them it's against the law. Everyone expected trouble. They all had their big powerful rifles, and several of them were half intoxicated. I remained down until about 9 and they were still marching around and singing—about two or three hundred strong. About 9:30 the war broke out, tried to take the jail, which was guarded by about two hundred deputies—some say they fired several shots, about two or three hundred, I believe. This all occurred between the Advertiser block and the city jail. Ever since they have been running around here with their arms and ammunition, until the arrival of the federal troops from Fort Leavenworth, Kan. They have buried their arms now, and just as soon as troops leave will resurrect them and begin all over again. I must confess that I have felt rather uneasy myself at times. John went to Pueblo week before last to serve on a petit jury, and I had to do all the machine work, and as fate would have it we were swamped with machine work. Well, several of the strikers congregated at the window every day and stood and jabbered—now, imagine trying to keep cool with a bunch of yaps with long rifles standing within less than six feet of you and jabbering about your knew not what. Not at all comforting. They are standing out here now, three dagos and two Greeks, but with no guns, ish ca bibble.

Oh, yet, you ought to thank your stars that you are in a civilized country now and don't have to worry about some foreigner, sticking you in the back with a knife or taking a pop at you with a 30-36. Believe me, this is some country now.

Vern Wray, formerly with the Sewell-Carter Automobile Co., of this city, and Roland Wray of Pickering have purchased a hardware stock at Pickering. Mr. Wray will move to Pickering within the next week.

AN ACCOUNT OF TRACK MEET.

Prof. Swinehart Addressed Normal Students, Telling Them of the Meet at Columbia.

Prof. H. P. Swinehart, who attended the Missouri valley inter-high school track meet, and who was also an official at the dual track meet between Missouri university and Ames Agricultural college, gave a very interesting account of his trip to the students of the Normal school during the assembly hour this morning.

Mr. Swinehart said that he met many of the athletes there who had contested at the meet at Maryville, and that northwest Missouri certainly upheld her reputation in the meet. Saville, from Grant City, who won the mile and half mile here in record time, contested there and won again, outstripping the fast Kansas City miller with ease. He ran the mile in 4 minutes and 47 seconds there, which was 2 seconds better than his time here.

From his impressions of the meet and from his reception by the officials at Columbia, Mr. Swinehart feels that the attitude of the state university people is very cordial toward the Normal school. Coaches Brewer and Schulte of the University of Missouri extended the courtesy of the field to Mr. Swinehart and expressed a willingness to co-operate with this school in any way they could. Guy Kirksey, who was starter at the meet here, acted in that capacity at Columbia Saturday.

In the Missouri-Iowa meet, Ames won by the bare margin of 1 point, the final score being 63-62. The meet was not decided until after the relay race, which was the last event, had been run and Iowa's crack sprinter had barely nosed out the Missouri man.

President Richardson also gave a short talk, stressing the value of preparation not only in athletics but for the life work, where preparation is just as essential to win as it is in athletic contests.

S. H. Conlin Home.

S. H. Conlin of Barnard, one of the county highway commissioners, has returned from a trip through California.

ALL MADE READY

FOR ENTERTAINMENT OF GOVERNOR AND PROMINENT MEN.

MANY ARRIVE TONIGHT

To Take Trip Over County—Meeting in Court House in Afternoon—Highways Will Be Inspected.

All arrangements are completed for the entertainment of Governor Elliott Major and members of the state board of agriculture and many other prominent men who will be in Maryville Wednesday for the meeting of the state board of agriculture. Many of the visitors will arrive this evening, while Governor Major and the other members will come on the Wabash passenger Wednesday morning.

The Commercial club has made arrangements for members of the club to meet the governor and the other visitors at the early train Wednesday morning. At 7:30 o'clock in the morning an auto trip will be taken over the west side of the county. Graham, Maitland, Skidmore, Quitman and Burlington Junction will be visited, and at these places Governor Major will make a short speech. The Maryville band will be taken along with the party, and at each stop music will be furnished by them.

There will be thirty cars making the trip, and others have been invited to join the procession at each of the towns where stops will be made.

The party will return to Maryville at 1 o'clock, in time for the afternoon meeting to be held at the court house at 2 o'clock. Governor Major and many other prominent visitors will speak. The meeting of the board will be held at the Linville hotel after the afternoon meeting.

The meeting to be held Wednesday is one of the most important ones to be held in the county and all should attend. Many of the speakers will talk on agriculture.

Preparatory to the automobile trip which the party will take Wednesday, John Clark, county highway engineer, has issued the following call for road dragging along the route that will be taken by the party:

The Missouri state board of agriculture meets in Maryville Wednesday, and a trip is planned for that day, going from Maryville to Graham, Maitland, Skidmore, Quitman, Burlington Junction and returning through Wilcox to Maryville. These men will give voice to the impression made on them while in this county, and that includes the roads.

Col. Buffum, the state highway commissioner, will be a member of the party, and part of the roads which will be traveled by the board will be over proposed state roads, and Col. Buffum will probably take a few notes on the condition of these roads.

The road drags in this county have been laying idle for some time, on account of the fact that at this time of year the farmers are all busy in the

fields, putting in and caring for crops, and in fact have had very little time to keep their roads in the good condition which they are usually found. Some of the regularly dragged roads, however, have not been dragged since the last rains and are very rough, and some of the drags which are being used are too light.

It is not known whether or not Col. Buffum will make an official inspection of the roads on this trip.

COUNTY RECEIVES NEW BRIDGES.

Seven New Steel Bridges Arrive Tuesday—To Be Erected in County.

The county received seven new steel bridges Tuesday morning from the Illinois Steel Bridge Co. of Jacksonville, Ill. Highway Engineer Clark says they will be erected immediately and that they are all designed heavy enough to support concrete floors, but only a part of them will be finished with concrete. Mr. Clark also states that there are several steel bridges in the county which will be moved on account of the fact that the streams which they span are not large enough to require a steel bridge, and that they will be replaced with concrete culverts. In this manner he hopes to supply the needs of the county with as little expense as possible. This will save the county the expense of buying several new steel bridges and will also do away with the expense of the repairs required on the bridges where the culverts will be placed.

BROWNE IS A CANDIDATE.

Hopkins Attorney Files for Probate Judge—W. F. Bolin for County Clerk.

S. E. Browne of Hopkins and W. F. Bolin of this city filed their declarations Tuesday morning with County Clerk George W. Demott. Mr. Browne for probate judge and Mr. Bolin for county clerk, subject to the action of the Democratic primary to be held August 4.

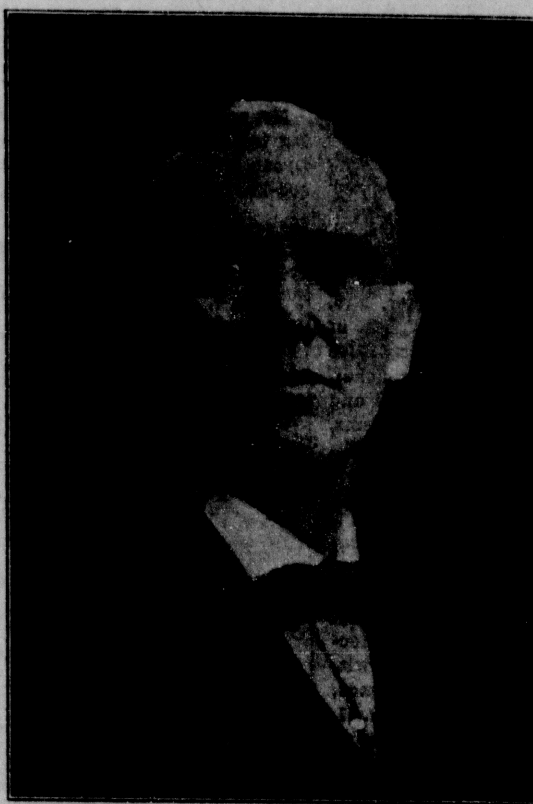

Simon E. Browne has been a resident of and practiced law at Hopkins for nineteen years this month. He has had a good practice in the probate court, representing many large estates. He has always been a Democrat and has never failed to work for the interests of the party and has never before ran for a county office nor held office except in the city of Hopkins. Mr. Browne will have opposition on the Democratic ticket in Jesse F. Robertson of Burlington Junction.

Frank Bolin for county clerk is well known all over the county and is well fitted for that position. He will be opposed for that position by Fred Yeomans.

Struck by Lightning.

A barn belonging to John Ferquar, three miles east of Elmo, was struck by lightning about 11 o'clock Monday night. The barn was burned to the ground. About 700 bushels of corn, 30 bushels of seed corn, 30 bushels of oats and 3 tons of baled hay were burned in the barn. None of the stock was lost, however, having been turned into the pasture.

Charles Swinford of Pickering transacted business in this city Tuesday.

THE EMPIRE, Of Course

KNOCKS OUT JUVENILE COURTS.

Law Applying to Counties Under 50,000 Population is Unconstitutional.

Through an opinion filed by Judge Walker in the supreme court Monday in a Callaway county case it is held that the act of the last legislature giving probate courts in counties of 50,000 inhabitants and under exclusive jurisdiction over delinquent children under 17 years of age, save in murder cases, is unconstitutional and void. Judge Walker says that while this kind of legislation is commendable in a general way, yet this specific act would completely upset the organic laws of the state in the matter of criminal jurisprudence.

In Nodaway county, Probate Judge W. H. Conn appointed W. H. Crawford as probation officer of the juvenile court on June 13, 1913. A few months afterward the county court refused to pay the salary of Mr. Crawford as probation officer, as the Callaway county case was up before the supreme court at that time, the court waiting to hear whether the law was void.

To Leave Saturday.

Judge and Mrs. S. R. Beech will leave Saturday afternoon for their future home in San Diego, Cal. Mr. and Mrs. Beech returned Monday from a visit at Goff and Kelley, Kan.

FOR REST ROOM

COUNTY COURT AWARDED CONTRACT TUESDAY AFTERNOON.

START WORK MONDAY

Bolin and Borrusch, Who Bid \$1,876.50, Get Contract, Ryks Plumbing Co. Secures the Plumbing.

The county court this afternoon awarded the contract for the building of the rest room in the basement of the court house to Bolin & Borrusch, W. F. Bolin and Martin Borrusch, their bid being \$1,876.50. John Borrusch had a bid of \$1,894. Bolin and Borrusch will start the work Monday, and they expect to have it completed in six weeks.

The Ryks Plumbing Co. secured the contract for the plumbing. Their bid was \$675, while the bid of the Standard Plumbing Co. was \$775 and \$815.

The plans for the women's rest rooms call for several rooms, and they will be furnished and fitted up nicely. Everything for their convenience will be had and a matron will be in charge of the rooms, the Federation of Women's Clubs to arrange for such an officer. Maryville has needed a ladies' rest room for many years and this is the first time that anything has been accomplished, and a great part of the credit is due to the efforts of the federated women's clubs of Maryville.

Two road cases are set before the court on Wednesday. They are the cases of Thomas Peters, George Brown and August Boedecker et al., for a new road in Jackson township and also the one of W. H. Brown, E. L. Ripley and Walter McNeal et al., for a new road in Hughes township.

C. G. Swinford, B. T. Wray and Wm. Burk of Union township were before the court this afternoon in regard to bridges in Union township.

GUILFORD ELECTS TEACHERS.

Miss Florence Skidmore, Primary, and Miss Mabel Carver, Intermediate—Bonds Were Burned.

At a meeting of the Guilford school board last Friday night, Miss Florence Skidmore was re-elected as teacher in the primary department for the ensuing year. Miss Mabel Carver was chosen as teacher in the intermediate department to succeed Miss Bernice Kershaw, who did not place her application with the board again this year. Miss Carver has been teaching near Burlington Junction for the past two years and has proven herself a very successful teacher. A meeting will be held Friday night of this week to fill the places of principal and grammar teacher. The board will receive applications for these two places during the week.

The last bond was paid that was ordered voted some time ago for building an addition to the school building. This bond was for \$500, the total amount of the issue being \$2,500. The cancelled bond was publicly burned in the street Saturday afternoon.

WAS A CRITICAL ONE

Dr. F. M. and Dr. Vilas Martin Report That She is Getting Along as Well as Could Be Expected.

Miss Marcia Messenger of The Democrat-Forum underwent an operation at St. Francis hospital this morning for tumor. She was on the operating table for three hours and it was a very critical operation. Late this afternoon her physicians, Dr. F. M. and Dr. Vilas Martin, said that she was getting along as well as could be expected and that her chances were very good for recovery. She came out from the operation very well.

Miss Messenger was taken to the hospital Monday. She has been feeling badly for the past two weeks and has been out of The Democrat-Forum office since that time.

The many friends of Miss Messenger in Maryville and out over the county will hear of her illness with deep regret. We hope to have cheering news of her condition tomorrow.

THE AMERICAN TOBACCO COMPANY

age is 82.1. The lowest May 1 condition for this decade was 63.4 in 1912, and the highest 98 in 1913. Present wheat condition by sections is: Northeast, 101; northwest, 102; central, 103; southwest, 104; southeast, 99. Practically no abandoned acreage is reported. It is estimated that only about one-half of one per cent of the crop seeded last fall will be plowed up. Of this practically all was put in for pasture.

Corn—The corn crop is going in good shape and in good time. It is estimated that 60 per cent of the corn land has been plowed. Soil condition is 96. Taking the state as a whole, 20 per cent of the crop has been planted. Planting is farthest advanced in the southwest section, where 38 per cent of the crop is in the ground. The central and southeast sections each report 21 per cent of the crop planted, while but 8 per cent is reported from the northwest section. For a period of ten years an average of 25 per cent of the corn crop had been planted by May 1. The earliest planting for this decade was in 1905, when 52 per cent of the crop was in by May 1, and the latest in 1912, when but 3.5 per cent of the planting had been completed by that date. A preliminary estimate of the 1914 corn acreage is estimated at 101 per cent as compared with last year's crop of 7,537,270 acres.

Oats—Most of the Missouri oats crop was seeded in good shape, but a few correspondents report poor condition of growing crop, owing to hard rains and cool weather immediately following seeding. Practically the entire crop had been seeded by May 1. Indications are that the final estimate will show a considerable increase in acreage over the 1913 crop.

Other crops—There seems to be a great diversity of opinion as to the condition of clover. It is generally agreed that much of the old crop was killed by the drouth of 1913. Many correspondents report the new crop as

coming along nicely, while others incline to a different view. Unreasonable weather after seeding has undoubtedly caused the loss of some of the new clover. Taking the state as a whole, the condition of clover is reported at 82. Reports on timothy are generally more favorable and indicate a condition of 89. Alfalfa condition is 92. During the month of April pastures did not make the growth hoped for, yet shortage of feed caused much stock to be turned on grass. Pasture condition for the state is 86. By sections, it is: Northeast, 86; northwest, 90; central, 85; southwest, 82; southeast, 89. There is considerable complaint that many permanent pastures seem to have been injured by the drouth of last summer, and many are showing an unusual growth of weeds. Of last year's hay crop it is estimated that only 8 per cent is now on farms. Ninety-one per cent of the correspondents of the board report stock on grass.

Fruit—The outlook for a general fruit crop continues good, being reported at 82 for the state. There is a marked difference of opinion as to the outlook for peaches. However, the condition, taking the state as a whole, is reported at 67. By sections it is: Northeast, 86; northwest, 73; central, 72; southwest, 48; southeast, 54.

DECREASE IN NATURALIZATION.

Aliens in Missouri Dodge Citizenship, According to Report.

Facts and figures on the influx of immigrant aliens into Missouri and departure of emigrant aliens from the state during nineteen months ending February 1, 1914, and on declarations of aliens desirous of becoming citizens and the final naturalization of other aliens during the year 1913, constitute the contents of a statistical bulletin issued today by Commissioner John T. Fitzpatrick of the bureau of labor statistics.

Comparisons are made between the influx and naturalization of aliens to show how rapidly immigrants become citizens.

Information the bureau of labor statistics has indicates that immigrant aliens coming into Missouri, as is the case in other states in recent years, are not making their first declaration of intentions of becoming citizens as rapidly as the influx did ten years ago. Applications for final papers are also not as numerous in proportion as formerly.

This condition is attributed to a decided change in nationality, education and intelligence of the aliens who are coming in, there being a decrease of those from England, Ireland, Scotland, Germany, France, Switzerland, North Italy, Sweden, Norway, Denmark, Austria and one or two other countries of North Europe, and an increase of those from South Europe.

In nineteen months, covering a period commencing June 30, 1912, and ending February 1, 1914, 20,300 immigrants, men, women and children, entered ports of the United States with Missouri as their direct destination. Of this number, 11,504 came in during the fiscal year ending June 30, 1913, and 8,796 men, women and children, during the six months from July 1, 1913, to January 1, 1914. In the month of January, 1914, the influx was 500.

During the same nineteen months 4,421 immigrant aliens, men, women and children departed from United States seaports after they had made Missouri their home for a short time. In the fiscal year ending June 30, 1913, 3,386 departed, and in the six months from July 1, 1913, to January 1, 1914, 1,733. During January, 1914, the outflow was 302.

For twelve months of 1913, in eighty federal courts in Missouri and ninety-nine state courts, 2,494 male aliens over 21 filed their intentions of becoming citizens and 1,401 filed petitions for final naturalization. Combined, these two forces represent 3,895 aliens.

In 1913 the state courts of Missouri issued 1,289 certificates of naturalization. The rejections total 312, the percentage of denials being 19.49. The 1913 denials were due to the following causes: Incompetent witnesses, 93; insufficient residence, 7; ignorance of applicant, 40; already a citizen, 1; immoral characters, 5; no certificate of arrival, 5; declaration invalid, 17; no jurisdiction, 5; no petitioners' motion, 15; premature petitions, 3; want of prosecution, 81; unable to produce witness or depositions, 1, and scattering causes, 39.

ONE MILLION TO PAY SOLDIERS

Colorado Solons Will Provide Means of Meeting Indebtedness.

NO DEFINITE ACTION IS TAKEN

Friends of Governor Ammons Assert No Attempt Will Be Made to Get an Impeachment Resolution Through the Lower House.

Denver, May 5.—The Colorado legislature will provide a means of meeting the state military indebtedness of \$1,000,000 before a lengthy recess or final adjournment is taken. This was the consensus of opinion expressed by house and senate leaders at the conclusion of a long joint executive session, at which the subjects contained in the governor's call were discussed. It was understood that the only action taken was on a proposal to pay the militia, name an investigating committee to inquire into conditions in the strike zone and take a recess of thirty or sixty days. This was defeated by practically a unanimous vote and the joint executive session was dissolved without formulating a definite plan of procedure.

Supporters of the administration expressed elation over the developments of the first day of the extra session and freely predicted there would be no attempt made to get a resolution proposing the impeachment of Governor Ammons through the house.

Slattery for Speaker. The selection of J. H. Slattery as the Democratic caucus candidate for speaker was regarded as a victory for the supporters of Governor Ammons. The appearance of Governor Ammons, worn, haggard and weary, leaning on the arm of Representative Lee, one of the women members, was greeted with applause. His step was slow and his haggard expression brought forth many expressions of pity and concern.

"Members, ladies and gentlemen," said the governor, in opening, "you have been called in this session to meet a very grave emergency in the history of the state." Here the governor paused and for a moment it seemed that he might not be able to continue.

"Our state hangs in the balance," he said, "and I have called you to help solve the questions."

"Tremendous duties have caused me to fail to write a message and I must speak to you instead of reading a message."

The governor then gave a history of the strike, telling how he had used every means possible to avert sending the militia to the coal fields, and said that after a number of lives had been lost, considerable property destroyed and a battle was imminent, he was compelled to call out the troops.

He called attention to that part of President Wilson's telegram which asked the legislature to take charge as soon as possible.

CURSE UPON OIL MILLIONS

Senator Says Rockefeller Money Is Covered by Blood and Tears.

Washington, May 5.—A fight was launched in the senate to prevent the government from accepting money from John D. Rockefeller to aid in farm demonstration and boll weevil extermination work. Senator Lane asserted that the money of Rockefeller was "covered with the blood and tears of women and children shot down in the Colorado strike," and that "some folks believe the curse of God is on every dollar he possesses."

The debate was on an amendment to the agricultural bill, which was pending when the senate adjourned for the day. This amendment, reported by the agricultural committee, proposed an appropriation of \$600,000, double the amount provided in the house bill for farm demonstration and boll weevil work, with a clause prohibiting contributions to the fund by individuals or corporations.

At present the general education board, to which Mr. Rockefeller has given millions, pays a portion of the salaries of 600 government employees engaged in this work.

Senator Kenyon insisted that the federal government had no right to go into a partnership with Rockefeller.

Austrian Miners to Seek Indemnity. Washington, May 5.—The Austrian ambassador called on the secretary of state to inquire about conditions in the strike zone of Colorado and to thank the secretary for intervention of federal troops. It is stated indemnity proceedings will be instituted for the lives of Austrians lost in rioting. Reports received by the Italian consulate on the scene of the strike establish the fact that the Italians killed were all naturalized Americans, hence no attempt will be made to secure indemnity.

Would Have Shot John D. New York, May 5.—Yesterday I was at the office of John D. Rockefeller, Jr., and if I could have got him I would have shot him down like a dog.

In these words, Marie Ganz voiced her protest against Mr. Rockefeller, according to the testimony of Irving E. Ettinger, a police stenographer, at the trial of Miss Ganz on a charge of disorderly conduct.

Mrs. H. B. Swearingen and Hazel Belcher and Dora Allen spent Sunday in St. Joseph with Mrs. Walter Phillips.

"The South Bend" Watch

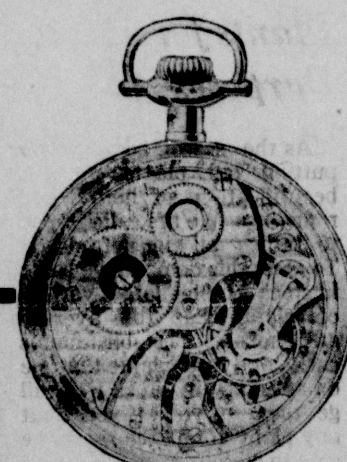

You have the privilege of selecting your case from a large assortment of artistically engraved cases of different designs, or you can have plain or Roman finish if you desire.

The case is guaranteed for 20 years and we give you a certificate stating how much gold there is in the back of the case. The case is built especially for the movement, thus insuring greater accuracy.

WHAT WE WILL DO FOR YOU

We agree to adjust the watch to your person and guarantee its keeping accurate time as long as it is not abused in any way. The manufacturers stand back of us in making this guarantee.

If the watch does not give you accurate service, we will give you a new watch in exchange.

"The South Bend" Watch

Design—Bridge model of latest design. Plates—Genuine nickel—not brass nickel plated as in many makes—insuring an even expansion and contraction in changes of temperature.

Jewels—Selected ruby and sapphire jewels throughout—are harder and not so easy to chip or break as the garnet jewels generally used.

Escapement—Double roller—this overcomes all danger of over-banking which would stop the watch.

Steel Escape Wheel—Harder than the brass commonly used.

Lever Set—Protects you against accidental moving of the hands.

Regulator—A patent micrometer nut and screw—no danger of back lash.

Balance Wheel—Compensating—automatically adjusts itself to changes in temperature, etc.

Hair Spring—Breguet—the very best made.

Adjustments—Temperature isochronism and three positions. Very closely rated under each one of these adjustments.

Finish—Very highly and beautifully finished throughout. Gold lettering.

REBELS ELIMINATED FROM MEDIATION

Diploma's Tell Carranza Not to Send Delegate.

Washington, May 5.—General Venustiano Carranza and the constitutionalists were practically eliminated from the proceedings of the three South American envoys at Washington who have undertaken to solve the Mexican problem by diplomacy.

In a telegram to General Carranza, the mediators announced that in view of his refusal to agree to an armistice with General Huerta, they withdrew their invitation to him to send a personal representative to participate in the mediation negotiations.

The mediators at a conference with Secretary of State Bryan communicated to the department that General Huerta had selected to represent his interests in the negotiations D. Emilio Rabasa, a Mexican jurist, and Augustin Garza, the under secretary of justice in Mexico. It further was announced that a third delegate to represent Huerta would be named.

The mediators told the constitutionalists that as long as he maintained his present attitude they must decline to treat with him. General Carranza had inquired in a note to the envoys what subjects a special representative might be required to discuss, pointing out that if the general problem of pacifying Mexico were to be approached he could not authorize any one to participate in the negotiations.

He reiterated that he would consent to mediation only on the incidents which had brought about a controversy "between the United States and Mexico," holding that he was the constitutionally chosen leader, to whom complaint about the insult at Tampico and other offenses originally should have been made.

In their telegram the mediators quoted Carranza's last note to them, adding that as long as he maintained that attitude they must decline to receive a representative from him, as they could not separate the incidents at Tampico and elsewhere which had brought about friction between Mexico and the United States from the general subject of pacifying Mexico.

CONSUL MENAGED WITH EXECUTION

John R. Silliman Prisoner of Maas at San Luis Potosi.

HAS BEEN HELD ELEVEN DAYS

Rebels at Tampico Threaten City's Destruction if River is Entered by United States Vessel—Will Empty Reservoirs and Ignite Oil.

Vera Cruz, May 5.—According to information brought here by two American newspaper correspondents, John R. Silliman, acting American consul at San Luis Potosi, has been a prisoner in the hands of General Joaquin Maas, the federal commander, for eleven days and has been threatened with execution.

The newspaper correspondents had come to Mexico recently on the invitation of Provisional President Huerta. They went to the north to watch the field operations of the federal army and after they had witnessed the defeat of the federal troops at San Pedro were taken back to San Luis Potosi and imprisoned, but afterward released.

The constitutionalists at Tampico have notified Rear Admiral Mayo, commander of the American warships stationed there, that if any of his vessels attempted to enter the Panuco river, the oil reservoirs above the city would be emptied and the oil ignited, which would mean certain destruction of the town.

Bridge Blown Up.
Reports of federal activities in the interior from Vera Cruz were received here. General Gustavo Maas, the Mexican commander, was said to have blown up with dynamite the San Francisco bridge on the narrow gauge railroad, which was the line used by General Scott in his advance on Mexico City in 1917.

This report, however, was not confirmed, although it is known by Brigadier General Funston that the federals had mined the structure along the road. It also was reported that another section of track had been torn up. The American consuls at Progreso, Puerto Mexico and Carman have been ordered to turn over their interests to the French consuls.

The prices of articles of food are beginning to rise in consequence of the small amount being brought into the city from the country districts.

Goes Beyond Lines.
General Frederick Funston for the first time went beyond the American lines encircling the city. He proceeded to the waterworks at El Tejar, nine miles to the south, on a visit of inspection, making the trip on a short train of flat cars, which bore an escort of a company of infantry.

At El Tejar the general found all the men composing Major John H. Russell's outpost in the best of spirits. The force had been strengthened since the alarm on Saturday by a battery of artillery and some additional marines.

The village in which the men are quartered is typical of thousands in Mexico. The school house, which is occupied as headquarters. For all supplies furnished to the troops the villagers are paid and their good will seemed to have been won by the fact that the American soldiers have been careful to ask permission even before beginning to dig a small hole.

Woman Sniper Kills Eight Americans.
A woman, said to have killed eight American bluejackets and marines by sniping them in the streets during the first days of the American occupation, was given into the custody of the military authorities. A Mexican had informed army officials of her whereabouts, upon which her house was searched and a quantity of arms found. She is to be tried by a military court today on charges of murder.

Demand Surrender of Water Works.
Washington, May 5.—Another fruitless demand by Mexican federal soldiers for the surrender of the waterworks just outside of Vera Cruz was reported to the war department by General Funston. The report said Mexican officers called on an American outpost to surrender, but made no vigorous effort to enforce their demand. The Mexicans retired and no shots were fired. General Funston has asked for instructions as to contemplated steps.

Rich Maderista Missing From Capital.
Mexico City, May 5.—Pedro Lascurain, a wealthy real estate man, who was minister of foreign affairs in the cabinet of the late President Madero, has disappeared. No successor has yet been appointed to take the portfolio of foreign affairs, resigned by Jose Lopez Portillo y Rojas.

Zapata Plans to Attack Mexico City.
Vera Cruz, Mex., May 5.—A proclamation, dated May 1 and signed by Zapata, published in the local Mexican papers, announces that the southern rebels will today attack Mexico City. It also condemned General Huerta and General Aureliano Blanquet to death.

Ryan Arrives at Mexican Capital.
Mexico City, May 5.—Dr. Edward Ryan, the American who had been recently condemned to death at Zacatecas, arrived here.

Mr. and Mrs. James Griffey of Parnell announce the birth of a ten and a half pound daughter April 30. They have given her the name of Thelma Alice.

John Baker returned Sunday night from Kansas City, where he went a week ago with his wife. Mrs. Baker remained for vital-science treatments at Dr. Plant's temple of health, where she will be for three or four weeks.

TELLS OF STRIKE

ARTHUR B. CONDON WRITES FROM TRINIDAD, COL.

FIGHTING ON STREETS

Strikers, Mostly Foreigners, Try to Capture City Jail—Conditions Bad.

Arthur B. Condon of Trinidad, Col., son of Mrs. B. E. Condon of this city, wrote a letter to Loyd Miles of the Maryville Advertising company about the big miners' strike now going on in Colorado. Trinidad is in the center of the mining district and is a city of 16,000. Mr. Condon has lived in Trinidad for over a year and is in the employ of the Robinson-Wright Printing Co. He and his family will probably move back to Maryville soon. John H. English, a former Maryville printer, is in Trinidad and is employed by the same concern.

The letter follows:

You probably read in the Advertiser of the Ludlow fight. Ludlow is about twelve miles from here, on the way to John's ranch, and a little to the left. Well, at the time of the battle Captain Lindenfelt was stationed there with a large army of forty-two men, merely to protect property in that district, and not expecting to fight the dagoes at all. The miners and their leaders claim that Lindenfelt attacked them with machine guns and had no respect for women or children, but merely began a campaign of butchery and annihilation. Imagine, if you can, forty-two men attacking something like four or five hundred strikers. Ridiculous! The militia were fired upon while taking their horses to water. Then it was that things really did happen. True, Lindenfelt had a machine gun, and he knew how to use it, too, as attested by the papers and various other reports. All of the talk about the murdering of innocent women and children is all rot—tommy-rot. Eleven of them were smothered in the pits that they had dug beneath their tents—not a one was shot. The strikers are to blame for their deaths—they knew that they were going to fight, in fact had planned it two weeks before hand—why didn't they remove their women and children to a place of safety—because they didn't have even the sense of a wild beast—which most of them are. Now, after the fight and destruction of their tent colony they came into our little city and established headquarters where the militia were formerly camped—you remember, out there by the hospital. Now, maybe you think Trinidad was glad to see them; no, not yet. They soon began to intimidate and carry on their little warfare right here in this peaceful (?) city—last Saturday night they had the nerve to try and capture the city jail, where several of their men have been making their home for several months. I was downtown about 8 o'clock and at that time they were marching around the streets, singing Onions forever, boys, onions forever, bottled, fried or raw, and if you don't eat them it's against the law. Everyone expected trouble. They all had their big powerful rifles, and several of them were half intoxicated. I remained down until about 9 and they were still marching around and singing—about two or three hundred strong. About 9:30 the war broke out, tried to take the jail, which was guarded by about two hundred deputies—some say they fired several shots, about two or three hundred, I believe. This all occurred between the Advertiser block and the city jail. Ever since they have been running around here with their arms and ammunition, until the arrival of the federal troops from Fort Leavenworth, Kan. They have buried their arms now, and just as soon as troops leave will resurrect them and begin all over again. I must confess that I have felt rather uneasy myself at times. John went to Pueblo week before last to serve on a petit jury, and I had to do all the machine work, and as fate would have it we were swamped with machine work. Well, several of the strikers congregated at the window every day and stood and jabbered—now, imagine trying to keep cool with a bunch of yaps with long rifles standing within less than six feet of you and jabbering about you knew what. Not at all comforting. They are standing out here now, three dagoes and two Greeks, but with no guns, ish ca bibble.

Oh, yet, you ought to thank your stars that you are in a civilized country now and don't have to worry about some foreigner sticking you in the back with a knife or taking a pop at you with a 30-30. Believe me, this is some country now.

Vern Wray, formerly with the Sewell-Carter Automobile Co., of this city, and Roland Wray of Pickering have purchased a hardware stock at Pickering. Mr. Wray will move to Pickering within the next week.

AN ACCOUNT OF TRACK MEET.

Prof. Swinehart Addressed Normal Students, Telling Them of the Meet at Columbia.

Prof. H. P. Swinehart, who attended the Missouri valley inter-high school track meet, and who was also an official at the dual track meet between Missouri university and Ames Agricultural college, gave a very interesting account of his trip to the students of the Normal school during the assembly hour this morning.

Mr. Swinehart said that he met many of the athletes there who had contested at the meet at Maryville, and that northwest Missouri certainly upheld her reputation in the meet. Saville, from Grant City, who won the mile and half mile here in record time, contesting there and won again, outstripping the fast Kansas City miller with ease. He ran the mile in 4 minutes and 47 seconds there, which was 2 seconds better than his time here.

From his impressions of the meet and from his reception by the officials at Columbia, Mr. Swinehart feels that the attitude of the state university people is very cordial toward the Normal school. Coaches Brewer and Schulte of the University of Missouri extended the courtesy of the field to Mr. Swinehart and expressed a willingness to co-operate with this school in any way they could. Guy Kirksey, who was starter at the meet here, acted in that capacity at Columbia Saturday.

In the Missouri-Iowa meet, Ames won by the bare margin of 1 point, the final score being 63-62. The meet was not decided until after the relay race, which was the last event, had been run and Iowa's crack sprinter had barely nosed out the Missouri man.

President Richardson also gave a short talk, stressing the value of preparation not only in athletics but for the life work, where preparation is just as essential to win as it is in athletic contests.

ALL MADE READY

FOR ENTERTAINMENT OF GOVERNOR AND PROMINENT MEN.

MANY ARRIVE TONIGHT

To Take Trip Over County—Meeting in Court House in Afternoon—Highways Will Be Inspected.

All arrangements are completed for the entertainment of Governor Elliott Major and members of the state board of agriculture and many other prominent men who will be in Maryville Wednesday for the meeting of the state board of agriculture. Many of the visitors will arrive this evening, while Governor Major and the other members will come on the Wabash passenger Wednesday morning.

The Commercial club has made arrangements for members of the club to meet the governor and the other visitors at the early train Wednesday morning. At 7:30 o'clock in the morning an auto trip will be taken over the west side of the county. Graham, Maitland, Skidmore, Quitman and Burlington Junction will be visited, and at these places Governor Major will make a short speech. The Maryville band will be taken along with the party, and at each stop music will be furnished by them.

There will be thirty cars making the trip, and others have been invited to join the procession at each of the towns where stops will be made.

The party will return to Maryville at 1 o'clock, in time for the afternoon meeting to be held at the court house at 2 o'clock. Governor Major and many other prominent visitors will speak. The meeting of the board will be held at the Linville hotel after the afternoon meeting.

The meeting to be held Wednesday is one of the most important ones to be held in the county and all should attend. Many of the speakers will talk on agriculture.

Preparatory to the automobile trip which the party will take Wednesday, John Clary, county highway engineer, has issued the following call for road dragging along the route that will be taken by the party:

The Missouri state board of agriculture meets in Maryville Wednesday, and a trip is planned for that day, going from Maryville to Graham, Maitland, Skidmore, Quitman, Burlington Junction and returning through Wilcox to Maryville. These men will give voice to the impression made on them while in this county, and that includes the roads.

Col. Buffum, the state highway commissioner, will be a member of the party, and part of the roads which will be traveled by the board will be over proposed state roads, and Col. Buffum will probably take a few notes on the condition of these roads.

The road drags in this county have been laying idle for some time, on account of the fact that at this time of year the farmers are all busy in the fields, putting in and caring for crops, and in fact have had very little time to keep their roads in the good condition which they are usually found. Some of the regularly dragged roads, however, have not been dragged since the last rains and are very rough, and some of the drags which are being used are too light.

It is not known whether or not Col. Buffum will make an official inspection of the roads on this trip.

County receives new bridges. Seven new steel bridges arrive Tuesday—To Be Erected in County.

The county received seven new steel bridges Tuesday morning from the Illinois Steel Bridge Co. of Jacksonville, Ill. Highway Engineer Clary says they will be erected immediately and that they are all designed heavy enough to support concrete floors, but only a part of them will be finished with concrete. Mr. Clary also states that there are several steel bridges in the county which will be moved on account of the fact that the streams which they span are not large enough to require a steel bridge, and that they will be replaced with concrete culverts. In this manner he hopes to supply the needs of the county with as little expense as possible. This will save the county the expense of buying several new steel bridges and will also do away with the expense of the repairs required on the bridges where the culverts will be placed.

Browne is a candidate. Hopkins Attorney Files for Probate Judge—W. F. Bolin for County Clerk.

S. E. Browne of Hopkins and W. F. Bolin of this city filed their declarations Tuesday morning with County Clerk George W. Demott. Mr. Browne for probate judge and Mr. Bolin for county clerk, subject to the action of the Democratic primary to be held August 4.

Simon E. Browne has been a resident of and practiced law at Hopkins for nineteen years this month. He has had a good practice in the probate court, representing many large estates. He has always been a Democrat and has never failed to work for the interests of the party and has never before ran for a county office nor held office except in the city of Hopkins. Mr. Browne will have opposition on the Democratic ticket in Jesse F. Robertson of Burlington Junction.

Frank Bolin for county clerk is well known all over the county and is well fitted for that position. He will be opposed for that position by Fred Yeomans.

Struck by Lightning. A barn belonging to John Ferquar, three miles east of Elmo, was struck by lightning about 11 o'clock Monday night. The barn was burned to the ground. About 700 bushels of corn, 30 bushels of seed corn, 30 bushels of oats and 3 tons of baled hay were burned in the barn. None of the stock was lost, however, having been turned into the pasture.

Charles Swinford of Pickering transacted business in this city Tuesday.

THE EMPIRE, Of Course

KNOCKS OUT JUVENILE COURTS.

Law Applying to Counties Under 50,000 Population is Unconstitutional.

Through an opinion filed by Judge Walker in the supreme court Monday in a Callaway county case it is held that the act of the last legislature giving probate courts in counties of 50,000 inhabitants and under exclusive jurisdiction over delinquent children under 17 years of age, save in murder cases, is unconstitutional and void. Judge Walker says that while this kind of legislation is commendable in a general way, yet this specific act would completely upset the organic laws of the state in the matter of criminal jurisprudence.

In Nodaway county, Probate Judge W. H. Conn appointed W. H. Crawford as probation officer of the juvenile court on June 13, 1913. A few months afterward the county court refused to pay the salary of Mr. Crawford as probation officer, as the Callaway county case was up before the supreme court at that time, the court waiting to hear whether the law was void.

To Leave Saturday. Judge and Mrs. S. R. Beech will leave Saturday afternoon for their future home in San Diego, Cal. Mr. and Mrs. Beech returned Monday from a visit at Goff and Kelley, Kan.

FOR REST ROOM

COUNTY COURT AWARDED CONTRACT TUESDAY AFTERNOON.

START WORK MONDAY

Bolin and Borrusch, Who Bid \$1,876.50, Get Contract, Ryks Plumbing Co. Secures the Plumbing.

The county court this afternoon awarded the contract for the building of the rest room in the basement of the court house to Bolin & Borrusch, W. F. Bolin and Martin Borrusch, their bid being \$1,876.50. John Borrusch had a bid of \$1,894. Bolin and Borrusch will start the work Monday, and they expect to have it completed in six weeks.

The Ryks Plumbing Co. secured the contract for the plumbing. Their bid was \$675, while the bid of the Standard Plumbing Co. was \$775 and \$815.

The plans for the women's rest rooms call for several rooms, and they will be furnished and fitted up nicely. Everything for their convenience will be had and a matron will be in charge of the rooms, the Federation of Women's Clubs to arrange for such an officer. Maryville has needed a ladies' rest room for many years and this is the first time that anything has been accomplished, and a great part of the credit is due to the efforts of the federated women's clubs of Maryville.

Two road cases are set before the court on Wednesday. They are the cases of Thomas Peters, George Brown and August Boedecker et al., for a new road in Jackson township and also the one of W. H. Brown, E. L. Ripley and Walter McNeal et al., for a new road in Hughes township.

C. G. Swinford, B. T. Wray and Wm. Burk of Union township were before the court this afternoon in regard to bridges in Union township.

GUILFORD ELECTS TEACHERS.

Miss Florence Skidmore, Primary, and Miss Mabel Carter, Intermediate—Bonds Were Burned.

At a meeting of the Guilford school board last Friday night, Miss Florence Skidmore was re-elected as teacher in the primary department for the ensuing year. Miss Mabel Carter was chosen as teacher in the intermediate department to succeed Miss Bernice Kershaw, who did not place her application with the board again this year. Miss Carter has been teaching near Burlington Junction for the past two years and has proven herself a very successful teacher. A meeting will be held Friday night of this week to fill the places of principal and grammar teacher. The board will receive applications for these two places during the week.

The last bond was paid that was ordered voted some time ago for building an addition to the school building. This bond was for \$500, the total amount of the issue being \$2,500. The cancelled bond was publicly burned in the street Saturday afternoon.

WAS OPERATED ON

MISS MARCIA MESSENGER UNDERWENT OPERATION.

WAS A CRITICAL ONE

Dr. F. M. and Dr. Vilas Martin Report That She is Getting Along as Well as Could Be Expected.

Miss Marcia Messenger of The Democrat-Forum underwent an operation at St. Francis hospital this morning for tumor. She was on the operating table for three hours and it was a very critical operation. Late this afternoon her physicians, Dr. F. M. and Dr. Vilas Martin, said that she was getting along as well as could be expected and that her chances were very good for recovery. She came out from the operation very well.

Miss Messenger was taken to the hospital Monday. She has been feeling badly for the past two weeks and has been out of The Democrat-Forum office since that time.

The many friends of Miss Messenger in Maryville and out over the county will hear of her illness with deep regret. We hope to have cheering news of her condition tomorrow.

Sheldon-Dyson Wedding.

The marriage of Miss Myrtle Elizabeth Sheldon to Mr. Joseph William Dyson took place Monday evening at the home of the bride's parents, Mr. and Mrs. E. B. Sheldon, 413 West Second street. The ring ceremony, witnessed by relatives and close friends, was performed at 7 o'clock by Rev. H. E. Stout, president of Howard-Payne college, Fayette, Mo., before an improvised altar in the living room of ferns, palms and bridal wreath. Before the ceremony Mrs. Lewis C. Allen of St. Joseph sang "Believe Me If All Those Endearing Young Charms," by Moore, and Miss Grace Langan played the Mendelssohn wedding march for the entrance of the bridal party.

The bride was gown in white broad-crepe chamoisee with trimmings of shadow lace and pearls, and a corsage bouquet of lilies of the valley and

Anty Drudge Disagrees

Mrs. Oldway—"I told Mrs. Newfangle the other day that I wouldn't be hired to do things the way she does. Why, she says she never boils her clothes any more since you told her about some sort of soap to use. I don't think clothes that aren't rubbed and boiled are fit to wear."

Anty Drudge—"I certainly did tell her about Fels-Naptha Soap. You may like to do things the hardest way, but I know Mrs. Newfangle's clothes are just as clean as yours, and look whiter, without half the hard work. I tell every woman about Fels-Naptha Soap, and every's the pity if they are too foolish to try it."

new doesn't say that it isn't as good or better than the old things we have been used to. If you don't know about Fels-Naptha Soap, it is time that you learn.

Fels-Naptha Soap is one of the changes that means a lot to tired housekeepers. It means a way of doing work well. It means saving a lot of time and trouble. It means using cool or lukewarm water; it means making things look bright and new. Anything—paint, woodwork, kitchen sinks or greasy pans, the weekly wash, fine laces, heavy blankets—looks better if done with Fels-Naptha Soap.

Follow the directions on the Red and Green Wrapper.

WHY SUFFER FROM
UPSET STOMACH

Mi-o-na Regulates Bad Stomachs and Ends Dyspepsia.

If you feel melancholy, languid, or have headache, coated tongue, distress after eating, heartburn, belching of gas and undigested food, you are suffering with indigestion and dyspepsia. Now—at once—is the time to stop this distress. Get from the Orear-Henry Drug Co. a fifty-cent box of Mi-o-na Tablets. Their action is sure, effective and immediate.

Besides stopping the distress Mi-o-na strengthens the gastric glands so that they pour out their daily supply of digestive materials—what you eat is converted into nutrition and the entire system is properly nourished—you feel perfectly well, strong and energetic.

Mi-o-na is truly a household remedy—perfectly harmless—and is surely one of the best preparations to fix up out-of-order stomachs.

white roses decorated the bodice. Her tulle veil fell the length of her train and was fastened with lilies of the valley to a cap of tulle. She wore the groom's gift, a garnet pendant.

While congratulations were being extended the bridal couple were showered with rice which was concealed in a bower of white lilacs. A three-course luncheon followed, the color scheme of pink and white being carried out in the decorations and serving. On the dining room table, among pink and white roses and smilax was the wedding cake on a crystal receptacle which bore the wedding cake of the bride's mother. From the chandelier fell streamers of pink and white ribbon and smilax to the corners of the table.

Mr. and Mrs. Dyson left on an evening train for Fayette, Mo., where Mr. Dyson is a science instructor at Howard-Payne college. At the close of

school in June they will go to Chicago for the summer. The bride wore a traveling suit of blue moire with hat and gloves to match.

Mrs. Dyson is a graduate of the Maryville high school and three years ago took a degree in voice and English at Howard-Payne college. She taught voice for one year at Woodson Institute, Richmond, Mo., and the following year taught for a short time in St. Joseph. She will be very much missed from musical circles of this city as well as by a host of friends.

Out-of-town guests were Rev. Stout, Fayette; Mrs. Allen, St. Joseph; Mrs. Wm. Shelton, St. Joseph; Mr. and Mrs. Warren L. Robb, David Robb, Hopkins; Miss Fannie Cochran, Richmond, Mo.; Miss Lizzie Simonieg, Clyde; Miss Maud Petty, Fayette; Mr. Glen Nichols, Springfield, Mo.; Mr. Cecil H. Sheldon, Kansas City.

THE AMERICAN TOBACCO COMPANY

age is 82.1. The lowest May 1 condition for this decade was 63.4 in 1912, and the highest 98 in 1913. Present wheat condition by sections is: Northeast, 101; northwest, 102; central, 103; southwest, 104; southeast, 99. Practically no abandoned acreage is reported. It is estimated that only about one-half of one per cent of the crop seeded last fall will be plowed up. Of this practically all was put in for pasture.

Corn—The corn crop is going in good shape and in good time. It is estimated that 60 per cent of the corn land has been plowed. Soil condition is 96. Taking the state as a whole, 20 per cent of the crop has been planted. Planting is farthest advanced in the southwest section, where 38 per cent of the crop is in the ground. The central and southeast sections each report 21 per cent of the crop planted, while but 8 per cent is reported from the northwest section. For a period of ten years an average of 25 per cent of the corn crop had been planted by May 1. The earliest planting for this decade was in 1905, when 52 per cent of the crop was in by May 1, and the latest in 1912, when but 3.5 per cent of the planting had been completed by that date. A preliminary estimate of the 1914 corn acreage is estimated at 101 per cent as compared with last year's crop of 7,537,270 acres.

Oats—Most of the Missouri oats crop was seeded in good shape, but a few correspondents report poor condition of growing crop, owing to hard rains and cool weather immediately following seeding. Practically the entire crop had been seeded by May 1. Indications are that the final estimate will show a considerable increase in acreage over the 1913 crop.

Other crops—There seems to be a great diversity of opinion as to the condition of clover. It is generally agreed that much of the old crop was killed by the drouth of 1913. Many correspondents report the new crop as

coming along nicely, while others incline to a different view. Unreasonable weather after seeding has undoubtedly caused the loss of some of the new clover. Taking the state as a whole, the condition of clover is reported at 82. Reports on timothy are generally more favorable and indicate a condition of 89. Alfalfa condition is 92. During the month of April pastures did not make the growth hoped for, yet shortage of feed caused much stock to be turned on grass. Pasture condition for the state is 86. By sections, it is: Northeast, 86; northwest, 90; central, 85; southwest, 82; southeast, 89. There is considerable complaint that many permanent pastures seem to have been injured by the drouth of last summer, and many are showing an unusual growth of weeds. Of last year's hay crop it is estimated that only 8 per cent is now on farms. Ninety-one per cent of the correspondents of the board report stock on grass.

Fruit—The outlook for a general fruit crop continues good, being reported at 82 for the state. There is a marked difference of opinion as to the outlook for peaches. However, the condition, taking the state as a whole, is reported at 67. By sections it is: Northeast, 86; northwest, 73; central, 72; southwest, 48; southeast, 54.

DECREASE IN NATURALIZATION.

Aliens in Missouri Dodge Citizenship, According to Report.

Facts and figures on the influx of immigrant aliens into Missouri and departure of naturalized aliens from the state during nineteen months ending February 1, 1914, and on declarations of aliens desirous of becoming citizens and the final naturalization of other aliens during the year 1913, constitute the contents of a statistical bulletin issued today by Commissioner John T. Fitzpatrick of the bureau of labor statistics.

Comparisons are made between the influx and naturalization of aliens to show how rapidly immigrants become citizens.

Information the bureau of labor statistics has indicates that immigrant aliens coming into Missouri, as is the case in other states in recent years, are not making their first declaration of intentions of becoming citizens as rapidly as the influx did ten years ago. Applications for final papers are also not as numerous in proportion as formerly.

This condition is attributed to a decided change in nationality, education and intelligence of the aliens who are coming in, there being a decrease of those from England, Ireland, Scotland, Germany, France, Switzerland, North Italy, Sweden, Norway, Denmark, Austria and one or two other countries of North Europe, and an increase of those from South Europe.

In nineteen months, covering a period commencing June 30, 1912, and ending February 1, 1914, 20,300 immigrants, men, women and children, entered ports of the United States with Missouri as their direct destination. Of this number, 11,504 came in during the fiscal year ending June 30, 1913, and 8,796 men, women and children, during the six months from July 1, 1913, to January 1, 1914. In the month of January, 1914, the influx was 500.

During the same nineteen months 4,421 immigrant aliens, men, women and children departed from United States seaports after they had made Missouri their home for a short time. In the fiscal year ending June 30, 1913, 3,386 departed, and in the six months from July 1, 1913, to January 1, 1914, 1,035. During January, 1914, the outflow was 302.

For twelve months of 1913, in eight federal courts in Missouri and ninety-nine state courts, 2,494 male aliens over 21 filed their intentions of becoming citizens and 1,401 filed petitions for final naturalization. Combined, these two forces represent 3,895 aliens.

In 1913 the state courts of Missouri issued 1,289 certificates of naturalization. The rejections total 312, the percentage of denials being 19.49. The 1913 denials were due to the following causes: Incompetent witnesses, 93; insufficient residence, 7; ignorance of applicant, 40; already a citizen, 1; immoral characters, 5; no certificate of arrival, 5; declaration invalid, 17; no jurisdiction, 5; no petitioner's motion, 15; premature petitions, 3; want of prosecution, 81; unable to produce witness or depositions, 1, and scattering causes, 29.

ONE MILLION TO PAY SOLDIERS

Colorado Solons Will Provide Means of Meeting Indebtedness.

NO DEFINITE ACTION IS TAKEN

Friends of Governor Ammons Assert No Attempt Will Be Made to Get an Impeachment Resolution Through the Lower House.

Denver, May 5.—The Colorado legislature will provide a means of meeting the state military indebtedness of \$1,000,000 before a lengthy recess or final adjournment is taken. This was the consensus of opinion expressed by house and senate leaders at the conclusion of a long joint executive session, at which the subjects contained in the governor's call were discussed.

It was understood that the only action taken was on a proposal to pay the militia, name an investigating committee to inquire into conditions in the strike zone and take a recess of thirty or sixty days. This was defeated by practically a unanimous vote and the joint executive session was dissolved without formulating a definite plan of procedure.

Supporters of the administration expressed elation over the developments of the first day of the extra session and freely predicted there would be no attempt made to get a resolution proposing the impeachment of Governor Ammons through the house.

Slattery for Speaker.

The selection of J. H. Slattery as the Democratic caucus candidate for speaker was regarded as a victory for the supporters of Governor Ammons. The appearance of Governor Ammons, worn, haggard and weary, leaning on the arm of Representative Lee, one of the women members, was greeted with applause. His step was slow and his haggard expression brought forth many expressions of pity and concern.

"Members, ladies and gentlemen," said the governor, in opening, "you have been called in this session to meet a very grave emergency in the history of the state." Here the governor paused and for a moment it seemed that he might not be able to continue.

"Our state hangs in the balance," he said, "and I have called you to help solve the questions."

"Tremendous duties have caused me to fail to write a message and I must speak to you instead of reading a message."

The governor then gave a history of the strike, telling how he had used every means possible to avert sending the militia to the coal fields, and said that after a number of lives had been lost, considerable property destroyed and a battle was imminent, he was compelled to call out the troops.

He called attention to that part of President Wilson's telegram which asked the legislature to take charge as soon as possible.

CURSE UPON OIL MILLIONS

Senator Says Rockefeller Money Is Covered by Blood and Tears.

Washington, May 5.—A fight was launched in the senate to prevent the government from accepting money from John D. Rockefeller to aid in farm demonstration and boll weevil extermination work. Senator Lane asserted that the money of Rockefeller was "covered with the blood and tears of women and children shot down in the Colorado strike," and that "some folks believe the curse of God is on every dollar he possesses."

The debate was on an amendment to the agricultural bill, which was pending when the senate adjourned for the day. This amendment, reported by the agricultural committee, proposed an appropriation of \$600,000, double the amount provided in the house bill for farm demonstration and boll weevil work, with a clause prohibiting contributions to the fund by individuals or corporations.

At present the general education board, to which Mr. Rockefeller has given millions, pays a portion of the salaries of 600 government employees engaged in this work.

Senator Kenyon insisted that the federal government had no right to go into a partnership with Rockefeller.

Austrian Miners to Seek Indemnity.

Washington, May 5.—The Austrian ambassador called on the secretary of state to inquire about conditions in the strike zone of Colorado and to thank the secretary for intervention of federal troops. It is stated indemnity proceedings will be instituted for the lives of Austrians lost in rioting. Reports received by the Italian consul row on the scene of the strike establish the fact that the Italians killed were all naturalized Americans, hence no attempt will be made to secure indemnity.

Would Have Shot John D.

New York, May 5.—"Yesterday I was at the office of John D. Rockefeller, Jr., and if I could have got him I would have shot him down like a dog." In these words, Marie Ganz voiced her protest against Mr. Rockefeller, according to the testimony of Irving E. Ettinger, a police stenographer, at the trial of Miss Ganz on a charge of disorderly conduct.

Mrs. H. B. Swearingen and Hazel Belcher and Dora Allen spent Sunday in St. Joseph with Mrs. Walter Phillips.

Shelby & Lowry, Nodaway county, added a car load of hogs to the day's receipts.—St. Joseph Stock Yards Journal.

Plates—Genuine nickel—not brass nickel plated as in many makes—insuring an even expansion and contraction in changes of temperature.

Jewels—Selected ruby and sapphire jewels throughout—are harder and not so easy to chip or break as the garnet jewels generally used.

Escapement—Double roller—this overcomes all danger of over-banking which would stop the watch.

Steel Escape Wheel—Harder than the brass commonly used.

Lever Set—Protects you against accidental moving of the hands.

Regulator—A patent micrometer nut and screw—no danger of back lash.

Balance Wheel—Compensating—automatically adjusts itself to changes in temperature, etc.

Hair Spring—Breguet—the very best made.

Adjustments—Temperature isochronism and three positions. Very closely rated under each one of these adjustments.

Finish—Very highly and beautifully finished throughout. Gold lettering.

Quick on the Trigger With a Snap-Shot Eye

THE crack trapshooter has to be a man with steady nerves and muscles absolutely under control—always ready, at the sudden jerk of a string to swing his gun into place and bring down his clay pigeon. This means trained, not to the minute, but to the split-second. He takes no chances with his nerves.

We present the names of some of these crack shots who smoke Tuxedo. They like to smoke; but they take no chances on a tobacco that might "throw them off."

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

is purposely made to give you all the benefits of the highest grade smoke. It is made from the very finest tobacco Kentucky grows—ripe, mellow, sweet and mild old Burley, aged right up to perfection-day. Then treated by the original "Tuxedo Process," which takes out the sting, makes Tuxedo smoke cool and slow, and guarantees that it cannot bite your tongue.

Tuxedo has had many imitators; none has ever equalled it in sheer quality and smoking-value.

REBELS ELIMINATED FROM MEDIATION

Diploma's Tel Carranza Not to Send Delegate.

Washington, May 5.—General Venustiano Carranza and the constitutionalists were practically eliminated from the proceedings of the three South American envoys at Washington who have undertaken to solve the Mexican problem by diplomacy.

In a telegram to General Carranza, the mediators announced that in view of his refusal to agree to an armistice with General Huerta, they withdrew their invitation to him to send a personal representative to participate in the mediation negotiations.

The mediators at a conference with Secretary of State Bryan communicated to the department that General Huerta had selected to represent his interests in the negotiations D. Emilio Rabasa, a Mexican jurist, and Augustin Garza, the under secretary of justice in Mexico. It further was announced that a third delegate to represent Huerta would be named.

The mediators told the constitutionalists that as long as he maintained his present attitude they must decline to treat with him. General Carranza had inquired in a note to the envoys what subjects a special representative might be required to discuss, pointing out that if the general problem of pacifying Mexico were to be approached he could not authorize any one to participate in the negotiations.

He reiterated that he would consent to mediation only on the incidents which had brought about a controversy "between the United States and Mexico," holding that he was the constitutionally chosen leader, to whom complaint about the insult at Tampico and other offenses originally should have been made.

In their telegram the mediators quoted Carranza's last note to them, adding that as long as he maintained that attitude they must decline to receive a representative from him, as they could not separate the incidents at Tampico and elsewhere which had brought about friction between Mexico and the United States from the general subject of pacifying Mexico.

Wyoming Man Robbed in Kansas City.

Kansas City, May 5.—Jewelry valued at \$1,000 and \$61,000 in non-negotiable checks, drafts and notes were stolen by three highwaymen from a man who, in his report to the police, gave the name of W. A. Warren. Mr. Warren said his home was in Wyoming and that he had extensive sheep interests in that state.

CONSUL MENAGED WITH EXECUTION

John R. Silliman Prisoner of War at San Luis Potosi.

HAS BEEN HELD ELEVEN DAYS

Rebels at Tampico Threaten City's Destruction if River is Entered by United States Vessel—Will Empty Reservoirs and Ignite Oil.

Vera Cruz, May 5.—According to information brought here by two American newspaper correspondents, John R. Silliman, acting American consul at San Luis Potosi, has been a prisoner in the hands of General Joaquin Maas, the federal commander, for eleven days and has been threatened with execution.

The newspaper correspondents had come to Mexico recently on the invitation of Provisional President Huerta. They went to the north to watch the field operations of the federal army and after they had witnessed the defeat of the federal troops at San Pedro were taken back to San Luis Potosi and imprisoned, but afterward released.

The constitutionalists at Tampico have notified Rear Admiral Mayo, commander of the American warships stationed there, that if any of his vessels attempted to enter the Panuco river, the oil reservoirs above the city would be emptied and the oil ignited, which would mean certain destruction of the town.

Bridge Blown Up.

Reports of federal activities in the interior from Vera Cruz were received here. General Gustavo Maas, the Mexican commander, was said to have blown up with dynamite the San Francisco bridge on the narrow gauge railroad, which was the line used by General Scott in his advance on Mexico City in 1914.

This report, however, was not confirmed, although it is known by Brigadier General Funston that the federales had mined the structure along the road. It also was reported that another section of track had been torn up.

The American consuls at Frontera, Progreso, Puerto Mexico and Carman have been ordered to turn over their interests to the French consuls.

The prices of articles of food are beginning to rise in consequence of the small amount being brought into the city from the country districts.

General Frederick Funston for the first time went beyond the American lines encircling the city. He proceeded to the waterworks at El Tejar, nine miles to the south, on a visit of inspection, making the trip on a short train of flat cars, which bore an escort of a company of infantry.

At El Tejar the general found all the men composing Major John H. Russell's outpost in the best of spirits. The force had been strengthened since the alarm on Saturday by a battery of artillery and some additional marines.

The village in which the men are quartered is typical of thousands in Mexico. The school house, which is the best building in the place, is occupied as headquarters. For all supplies furnished to the troops the villagers are paid and their good will seemed to have been won by the fact that the American soldiers have been careful to ask permission even before beginning to dig a small hole.

Woman Sniper Kills Eight Americans.

A woman, said to have killed eight American bluejackets and marines by sniping them in the streets during the first days of the American occupation, was given into the custody of the military authorities. A Mexican had informed army officials of her whereabouts, upon which her name was searched and a quantity of arms found. She is to be tried by a military court today on charges of murder.

Demand Surrender of Water Works.

Washington, May 5.—Another fruitless demand by Mexican federal soldiers for the surrender of the waterworks just outside of Vera Cruz was reported to the war department by General Funston. The report said Mexican officers called on an American outpost to surrender, but made no vigorous effort to enforce their demand. The Mexicans retired and no shots were fired. General Funston has asked for instructions as to contemplated steps.

Rich Maderista Missing From Capital.

Mexico City, May 5.—Pedro Lascurain, a wealthy real estate man, who was minister of foreign affairs in the cabinet of the late President Madero, has disappeared. No successor has yet been appointed to take the portfolio of foreign affairs, resigned by Jose Lopez Portillo y Rojas.

Zapata Plans to Attack Mexico City.

Vera Cruz, Mex., May 5.—A proclamation, dated May 1 and signed by Zapata, published in the local Mexican papers, announces that the southern rebels will today attack Mexico City. It also condemned General Huerta and General Aureliano Blanquet to death.

Ryan Arrives at Mexican Capital.

Mexico City, May 5.—Dr. Edward Ryan, the American who had been recently condemned to death at Zacatecas, arrived here.
